Hi Robert, David Yogi and I are headed out to a community meeting in Aneth Utah Chapter meeting today, we know we will get a lot of questions on drinking water and livestock water, is the NTUA directly working with Aneth and also Oljato Chapters? we just need Sectionsome concrete info and also contacts. Thanks for your help.

I have directed the EPA ERRS contractor to work with NTUA on water delivery issues. They have been in contact with the director of NTUA and are working out the logistics as we speak. As I get more information on that, I will pass it along. I am going to start using the Bulletin function on the Region 9 Gold King web site to send updates as needed.

FYI

Not sure you all saw this, but following press release issued yesterday:

NAVAJO TRIBAL

An Enterprise of

For Immediate Release

NTUA CONTINUES MONIT

Fort Defiance, AZ. — The Navajo Tribal Utility
State and Federal agencies regarding the water
southwest Colorado. Like other northern New
estimated 1 million gallons of mine waste was rele
San Juan River.

Since the notification, NTUA has remained in close contact with the Navajo Nation Environmental Protection Agency and State of New Mexico environmental officials. Officials emphasize that there is no threat to the drinking water system in the northern New Mexico part of the San Juan Basin.

We will look at it. Not sure it makes sense to ask people to bring in samples. Chain of custody issues. Better to do it like region 8 is doing it. Go to folks that request it. but what do I know.
